Adamson University
Bachelor of Science in Computer
Science
2021 - 2026

SKILLS

- HTML / CSS
- JavaScript
- React
- PHP
- MySQL
- Git

ABOUT ME

Computer science student with a strong foundation in programming, problem-solving, and software development. Experienced in building small-scale applications, debugging code, and working with data structures and algorithms.

ACADEMIC PROJECTS

Sentiment Analysis (Academic Project)

Developed a sentiment analysis system as part of coursework; built an AI and machine learning concept to analyze text and evaluate sentiment.

Web Development System (Academic Project)

Designed and developed a web-based system using HTML, CSS, JavaScript, and PHP; connected to a database using MySQL / SQLite.

Unity Game Development (Academic Project)

Created a simple game using Unity and C# as part of class requirements; implemented game logic, player movement, and UI elements.

Mobile Application Development (Academic Project)

Developed a mobile application as part of coursework; implemented core application features and user interface design.

PERSONAL QUALITIES

Willing to learn and adaptable.
Good problem-solving skills.
Passionate about technology and development.
